

Green Beret - Award Speech
By Shomit Sirohi

I. Axioms of Independence

When each person in the military advances a position on the chess game Green Beret - we interpret the position of each person as a role, structure, and process - in that it remains a dialectical search for material Sirohi provides, or I provide on research websites and journalism, with the addition, notebooks and philosophical lectures. This produces the result, individual, group and history as in fact making history, by a group with individual Daseins.

II. CIA as Cover Jacket

CIA then wears its cover jacket and follows me like a polit-beureau as I joke about CPs, in the world.

III. Sirohi as Trotskyist - Symphony in Praxis to Lead

Sirohi can be interpreted as a military position - he takes a car and travels the city, expecting cars to follow him in his films, and means that the day's news begins in the morning - we are all at work on his key lecture he does in stylistics - he means today my directive was - follow the jokes on Seraway-Sirohi, he is preferred we are backward - he means in the humour as he wears a bluish formal shirt with trousers - that lightness in Lacan is my message on the leading praxis - and smoking and drinking is supplemented with his tip - I am happy - this reads in Guerilla codes as leader to cut to a Greek building development. It means believe that the leader will make it then to a university - cuts to in fact popular front tactic is on in Arab worlds under Christian directive.

IV. How does Action of the Structure End?

With I, II and III in place action of the structure shifts from earlier military dispositive which has psychoanalytic guarding to the new I, II and III which is independence without action.

Thank you.
